“ We entrusted Churchill Press to work with us on a very special project. Last year marked Hawaiian’s 30th anniversary, and we wanted to honour the milestone and the journey of the company through a high-quality coffee table book. From the conceptual stage right through to the published piece, Phil and the team were seamless to work with – keeping us on track every step of the process. The quality and design of the book brought our story to life and it will forever be treasured. We are thrilled with the end result.”
